

Intelligence Report — ATM-MET0091

Generated: 2026-08-27T15:59:25.291913 · I4C Duty Officer (I4C_ADMIN)

Case ref: ALT-ATM-MET0091-20260827130718

Jurisdiction: State-B, Metro-West, PS-Metro-West-2 (fictional)
ATM: ATM-MET0091 · Bank of Baroda / Bank of Baroda Metro-West Branch 2
Risk score: 0.72 (calibrated probability (Platt), synthetic labels)
Predicted window: next 24h
Recommended action: INSUFFICIENT EVIDENCE — HOLD ACTION (review recommended; evidence below strength threshold)
Evidence — Complaint activity: 0 complaint(s) in the last 6h within 2km of this ATM (none). Linked accounts named in these complaints are monitored for withdrawal activity.
Evidence — Withdrawal activity: 0 withdrawal(s) from 0 distinct account(s) at this ATM in the last 3h.
Evidence — Context + source disclosure: Forecast time is in the night window (19:00–05:00); night-time weighting is an assumption general literature parameter (no India-specific public statistic). This ATM shows complaint-linked (mule) account activity in the above median — the DIRECTION of withdrawal clustering is a verified pattern (I4C Suspect Registry documents concentrated cash-out hubs); the exact concentration coefficients are assumption general literature tunable parameters.

Complaint	Type	Amount (INR)	Account token
-----------	------	--------------	---------------

Mule account tokens: — recommended for fund-blocking via CFCFRMS path.
Recommended recipients: Local Police (Metro-West) — PS-Metro-West-2; Bank Branch Manager (Bank of Baroda / Bank of Baroda Metro-West Branch 2)

Synthetic data / hackathon prototype — not operational intelligence.
